

Softsource Wins “Gold Partner of the Year” for the third year in a row, at the Hewlett Packard Enterprise Awards 2017.

Hewlett Packard Enterprise honoured the top performing partners across New Zealand during 2017 with the inaugural partner awards held at the Langham in Auckland.

These awards recognise the top performing partners and were judged on a combination of revenue, performance against target, growth and overall engagement with HPE and customers.

For the third year in a row, Softsource was awarded the “Gold Partner of the Year” for innovation and excellence in performance against a strong nationwide field.

“This award reflects Softsource’s successful partnership with Hewlett Packard (HPE) in delivering enterprise strength solutions across all market sectors. As we continue to develop our customers journey into the new world of emerging technologies we encompass the comprehensive HPE portfolio to ensure quality, agility and leading edge performance.” stated Pablo Garcia-Curtis, General Manager, Softsource. “Softsource is delighted to receive this award as it reflects the team commitment and capability in delivering exemplary and proficient solutions to our customers.”
