

A brief history
of business in

NEW ZEALAND

**In 1200,
New Zealand
had no businesses.**

And no people.

**By 2019, New Zealand
had approximately
546,000 businesses.**

Employing 2.3 million people.*

Those people used to work from
**582,480 registered business
locations.***

Now they could be anywhere.

Remote working, in online meetings,
working in hybrid teams.

**But they still need
to access their data.**

**Softsource vBridge
keeps business
connected.**

Softsource vBridge acts as a single resource for all your hardware and software procurement, system implementation and IT technologies. Our strategic alliances with key vendors ensure economical leverage, combined with a streamlined logistics capability and industry accredited technical support to ensure total satisfaction for all IT solutions.
