QuickQiosk

Vaccine Pass checking and data recording kiosk

Scanning made easy. Don't waste valuable staff time manually checking vaccine passes, simply allow your customers to do it themselves.

- Easy to use
- Self scan kiosk
- No wasting staff time
- Keep your own contact tracing records
- Help meet your compliance needs
- Show your customers you care

This was a life saver for us
in our busy hairdressing salons
at Peter Salter.

We certainly don't have time to be
manually scanning Vaccine Passes! The
QuickQiosk does it all for us,
is easy to use and was up and
running within minutes.

Christy Carter
Director

This easy solution scans your visitor's Vaccine Pass as they enter your premises. If valid, a positive response occurs and a phone number is entered for contact tracing purposes.

At the end of each day an email is generated listing the visitors for your contact tracing records.

\$1,100 + gst

Includes:

- Tablet device
- Countertop stand
- Scanning software
